STATINTL

MEMORANDUM FOR: [redacted]
Executive Officer, ODP

STATINTL

THROUGH : Chief, Systems Programming Division
FROM : [redacted]
Data Base Systems Branch of SPD
SUBJECT : Request to Deliver Delta Data Support
to the FBI

STATINTL

On November 2, 1977, I received a request for the new Delta Data support routines from the Federal Bureau of Investigation. The terminal support had been revised for the GIM-II 4.0 software release by Interactive Systems Branch. However, when [redacted] delivered the new GIM-II software to the FBI, these Delta Data routines were not included on the tape.

STATINTL

The following steps were taken to prepare a tape with the terminal support routines for the FBI. (1) A sterile, blank tape was received from the tape librarian in the Ruffing Computer Center (VOL=SER=424456). (2) The terminal support routines were copied to the tape: CAMCOMM, CAMDD, CAMTI, CAMHETRA, CAMNET, DDMCAM. (3) The tape was dumped and [redacted], acting Branch Chief, verified that only the above specified modules were on the tape. The tape will be delivered on November 21, 1977 and a blank tape will be returned by the FBI.

Enclosed is a copy of the letter of request from the FBI.

Dear Ronnie:

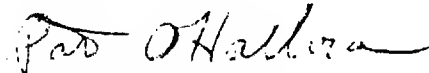

This letter is to confirm our verbal request for the Delta Data front end changes for release 4.0 and any related documentation.

We would also appreciate, if possible, source listings and/or documentation for the load modules listed below.

GIMANAL	PERFSTAT
COPYDB	PRTSTATS
GETDATE	PRXTRAC
GIMSTATS	MATCHUP

Thank you for your assistance in this matter. If I can provide any additional information regarding this request, please contact Bob Jordan at 324-4014 or myself at 324-4023.

Sincerely yours,

Pat O'Halloran
